Grave Sifter

When Grave Sifter enters the battlefield, each player chooses a creature type and returns any number of cards of that type from his or her graveyard to his or her hand.
It claws at the earth in a vain attempt to reclaim what it once was.

Biorhythm

Each player's life total becomes the number of creatures he or she controls.
*"I have seen life's purpose, and now it is my own."
—Kamah, druid acolyte*

Retether

Return each Aura card from your graveyard to play. Only creatures can be enchanted this way. (Aura cards that can't enchant a creature in play remain in your graveyard.)
The rifts reach into infinite time streams, bringing the divergent products of alternate pasts into the present.

Notes

Population: tracked Magic singles within 80% of their own all-time-high, with an entry price clearing the liquidity floor and ≥ 1 year of history. $\text{sell_score} = P(\text{decline} \geq 33\%) \times P(\text{no meaningful upside})$. Reprint probability comes from the sibling reprint-risk model and is a top driver of declines.

Disclaimer. Probabilities are estimates over a fixed historical regime. Trust the *ranking* more than the raw value. Not financial advice.
